

# -30°C Biomedical Freezer

DW-30L698

## **Scope of Application:**

Ideal for utilization in blood banks, hospitals, disease control centers, research institutes, as well as the electronic and chemical industries. Specifically designed for the cryopreservation of plasma, biologics, and other related products.

Qingdao Haier Biomedical Co.,Ltd.

### **Product Advantages**

#### Superior Temperature Uniformity

The temperature uniformity is ±3° C with the setting temperature of -30°C

#### High-efficiency and Energy-saving Compressor and System

High-efficiency hydrocarbon compressor, optimized refrigeration system and low power consumption

#### Green and Environmental Friendly

Hydrocarbon refrigerant, energy saving and environmental protection, built with LBA foam insulation, complies with European RoHS requirements

#### Multiple Alarm Functions

High/Low temperature/door ajar/power failure/sensor error/high ambient temperature alarm and also equipped with remote alarm interface, alarm mode is sound and flash

#### Microprocessor Controller

Microprocessor control, with temperature display precision at 0.1°C. Internal temperature is adjustable from -10°C to -30°C with 1°C control accuracy

#### Compact Footprint

Combine a small footprint with large storage capacity to provide flexible, reliable and convenient sample storage

#### **Optimal Design**

#### New Generation Appearance

A redesigned control panel features a revamped layout and updated icons, significantly improving user experience

#### **Porthole**

Two portholes as standard, allows for independent testing of cabinet temperature

#### Low Noise Design

Noise-reduction features and structure noise reduction design

#### Adjustable Storage Shelf Height

Built-in evaporator design, and the shelf height can be adjusted according to the size of the stored articles, so as to ensure the efficient use of large space in the cabinet

#### Safe and Secure

Upgraded handle design for one-handed use, with a lockable feature for added security. Can also be paired with a padlock for multi-user convenience

#### Configuration

Standard: 5 coated steel wired shelves, remote alarm interface. USB (115V60Hz)

Optional: stainless steel shelves, plastic blood bag drawers temperature recorder, RS485

#### **Product Parts**

Newly designed control panel with rearranged layout and icons greatly enhances usability

4 universal casters and 2 levelling feet allows for easy movement and locks safely into place

5 adjustable shelves, optional stainless steel shelf

Improved handle design for one-handed operation. Lockable handle with mechanical lock, and also can be equipped with padlock, convenient for multiple users

3 inner door design prevents rapid loss of cold when opening I the door, saving energy and ensuring smaller temperature fluctuations in the freezer
