

BENCHTOP MULTIPURPOSE REFRIGERATED CENTRIFUGE

LX-155T750R

It is a high-performance benchtop refrigerated centrifuge engineered for medium- to high-throughput workflows, offering exceptional versatility with support for tube sizes ranging from 0.2 mL microtubes to 750 mL bottles.

Ideal for a wide range of applications including cell culture processing, protein purification, and clinical sample preparation.

Product Features

Offering a broad portfolio of fixed-angle and swing-out rotors, which can accommodate tubes and bottles from 1.5 ml to 750 ml, as well as deep-well plates

High-efficiency centrifugation delivers a remarkable 98% sample yield and reaches max speed in just 45 seconds

Rapid cooling and precise temperature control maximize productivity by significantly reducing experimental time

Optimized sound design for low noise levels ($\leq 59\text{dB(A)}$)

Use of brushless induction motors to provide maintenance-free operation, eliminating carbon particle emissions

RFID rotor identification locks the maximum speed to prevent overspeed operation

Intuitive Interface

- The 7-inch glove-friendly touchscreen, combined with a wide viewing angle, makes operation more comfortable and practical for users of all heights
- Equipped with user login and password protection, ensuring individualized program data management for each user
- Quick recall feature for over 1000+ programs, minimizing time between runs and facilitating quick starts for routine users
- The speed, centrifugal force, time, and temperature can be adjusted by the user during centrifugation
- 11 acceleration + 12 deceleration stages

► Ergonomic Design

Intelligent lid locking monitoring and dual automatic self-locking to ensure safe operation

Dual gas spring design for safe and effort-saving door opening

Drainage tray is designed to prevent internal water accumulation and enhance corrosion resistance

316 stainless steel centrifuge chamber is rust-free and easy to clean

Triple-layer construction to ensure safe use

USB port enables easy export of operation records, such as speed, time, temperature, operation curves, and alarm messages.

► Key Features of Quick-Flip Biocontainment Safety Lids

● Quick-Flip Hinge Design

Our hinged lids do not need to be removed from the rotor. Just a quick flip gives you fast access to your samples

● Low-Pressure Closing Clip

The simple low-pressure clip offers a secure closure with an audible "click" and visual cues, enhancing safety and replacing multi-turn screw caps or complex lever systems

● Ambidextrous & Glove-Friendly

Designed for ease of use, our lids can be operated with either hand and are glove-friendly, ensuring seamless operation

● Premium Polymer Construction

Made from Polyetherimide (PEI), our lids provide excellent chemical resistance, transparency, and durability

● Certified Safety and Reliability

Independently tested and certified per IEC-61010 Section 2-020 Annex AA, ensuring top-level safety and performance

Choose our Quick-Flip biocontainment safety lids for innovative, safe, and durable lab solutions.
